TWS earphones Edifier TWS1 Pro2 ANC (black)

Ref: 6923520246458

The Edifier TWS headphones TWS1 pro2 (black).

Are you looking for wireless headphones that work well for everyday use? The Edifier TWS1 Pro 2 are sure to meet your expectations! The 10mm drivers guarantee great sound quality, and the built-in microphones will allow you to make high-quality calls. Their operating time reaches up to 6 hours on a single charge. ANC technology effectively reduces stubborn ambient sounds, and Bluetooth 5.3 is responsible for reliable connection to the device. The headphones are also distinguished by their waterproof design at IP54 level.

Excellent sound quality

With the Edifier TWS1 Pro 2 you'll feel like you're at a concert of your favorite band, without leaving the room! The headphones are equipped with 10-millimeter drivers that provide high quality sound. Crystal clear and natural sound combined with rich details and powerful bass will let you hear unknown details of your favorite tracks!

Forget about annoying noise

Cut off the noise and immerse yourself in the musical world. The headphones use advanced ANC noise cancellation technology, which reliably eliminates unnecessary ambient sounds in almost any situation. What's more, you can freely choose from a variety of available ANC modes to further customize the headphone's performance.

Up to 24 hours of operation

Worried about your headphones unexpectedly discharging during a workout or a long train ride? With the Edifier TWS1 Pro 2, you don't have to worry about a thing! The built-in rechargeable battery provides up to 4 hours of operation when you use ANC mode or up to 6 hours when it's off. A charging case is also included to extend their runtime by 12 h or 18 h respectively. The headphones also support fast charging, so after just 10 minutes of charging they can work for another hour!

Made for conversations

Talk freely with your loved ones no matter where you are. The headphones have 2 built-in microphones (2 per earpiece) that accurately record your voice. They also support ENC noise cancellation technology, which will mute ambient noise. Nothing will get in the way of your conversation anymore!

Ultra-low latency

Now nothing will prevent you from playing your favorite games! TWS1 Pro 2 offer a special mode designed for game lovers that provides ultra-low latency. Perfect synchronization of sound and video will make sure that no opponent will miss your attention anymore. Don't be surprised and break your records with more victories!

More possibilities

Discover all the features of the Edifier TWS1 Pro 2 headphones with the Edifier Connect app. Just install the app on your smartphone or tablet for even more possibilities! Using it, you can, among other things, check the battery charge status or personalize settings. You can also choose from the available EQ modes. Whether you're a fan of rock, classical or electronic music, the headphones will allow you to customize the sound to your preferences.

Thoughtful design

Ensure maximum comfort level while listening to music! Thanks to the ergonomic design of the headphones, you don't have to worry about uncomfortable pressure or the feeling of fatigue. They are also IP54 waterproof, so you can freely use them in almost any situation - raindrops, sweat or dust pose no threat to them. What's more, the Edifier TWS1 Pro 2 will intelligently detect if you have them in your ears - the music will automatically stop when you take them out of your ears, and then resume playback when you put them back on!
