Headphones, Edifier P210

Edifier P210 are versatile headphones that will transport you to a world of sound. Equipped with 9-millimeter drivers with a neodymium magnet and 6 μm diaphragm, they deliver fantastic sound with deep, juicy bass. They are distinguished by their thoughtful design and high comfort, as well as their sleek, minimalist design.

Fantastic sound

The headphones offer a full-range frequency response (20Hz-20KHz), guaranteeing sound full of musical details. The 9mm magnet and diaphragm drivers are responsible for fantastic audio quality. All this means you'll enjoy clear treble sound and deep, luscious bass.

Comfortable use

The P210 is not only about fantastic sound, but also about high comfort. The flexible 1.3-meter cable doesn't get tangled and gives you full freedom. You'll also find a set of 3 silicone tips, so you can customize the headphones to your needs. The tips further dampen outside sound, allowing you to fully focus on the songs you are listening to.

Wide compatibility

With an impedance of 24 Ω and a 3.5mm jack connector, the headphones will work well with a wide range of mobile devices, providing

clear sound without distortion. The sleek design of the headphones is sure to appeal to many users. Choose your favorite color and immerse yourself in the world of your favorite music.
