QCY T17 Wireless Headphones

Feel the freedom and crystal HI-FI sound quality with QCY T17 headphones! Discover the rich details in your favorite songs and experience them anew. Ultra-low latency and Bluetooth V5.1 chip take audio playback to a new level. The smart touch panel allows you to easily operate the headphones without taking your phone out of your pocket, and the ergonomic design and lightweight design allows it to stay in place while you're on the go.

Super lightweight and comfortable

The ergonomic shape and set of rubber bands included with the headphones allows for a perfect fit in your ear, so you can use them for hours without discomfort. Each headphone weighs just 4.2g. That's the same weight as an A4 size sheet of paper. Treat yourself to a new experience and discover the possibilities of T17.

Superior Sound Quality

With professional tuning and a composite diaphragm, the built-in dynamic driver provides clear sound and quick response to transient noise for crystal-clear audio reproduction so you can enjoy your favorite songs without distortion at any time.

Always with you

The headphones have a high capacity battery that lets you enjoy up to 7.5 hours of battery life. Combined with the 380mAh charging case, you can extend the playback time to 26 hours! That's up to 390 songs and 13 movies to play. Take your QCY T17 headphones on the farthest journeys and spend that time having fun.

Uninterrupted calls

Make calls from anywhere in the world with your QCY T17 headphones and enjoy an uninterrupted connection. ENC technology blocks out most background noise to ensure your caller hears exactly what you say. So you can enjoy conversations with loved ones or friends even in the most crowded places.

Innovative technologies

Thanks to the introduction of innovative technologies, the Bluetooth 5.1 chip will take you into the virtual world without limits, guaranteeing inaudible lag, which will definitely give an advantage to the most ardent gamers and stably maintains the connection. Choose whether to use one or two headphones by switching between modes and adjusting them to your needs.

Smart solutions

Take advantage of QCY T17's headphone capabilities and follow your commands without pulling out the device you are using. Pause, resume and rewind tracks, answer and reject calls with a gentle touch of your finger. By triple-clicking on the left earpiece, you can easily connect to your Siri, Alexa and Xiao Ai assistant to issue commands.
