TWS Earphones Edifier HECATE GX05 (Grey)

Ref: 6923520246823

Edifier HECATE GX05 TWS Wireless Earphones (gray).

The Edifier HECATE GX05 earphones are the perfect combination of functionality and futuristic design for an unforgettable music experience! They feature 10-millimeter drivers that offer clear, natural and richly detailed sound. They have built-in microphones that, combined with ENC technology, allow you to carry on conversations even in noisy environments. Their maximum run time on a single charge reaches 4.5 hours, and 2 different connection methods, Bluetooth 5.3 and 2.4 GHz connectivity, allow you to freely use different devices.

Sound quality at the highest level

Play your favorite songs and immerse yourself in a musical world! The HECATE GX05 are equipped with 10mm dynamic drivers and use the LHDAC codec to ensure excellent sound quality. They've also received Hi-Res Audio certification for high quality sound. Now your music sounds like you're listening to it live, and every sound is clear and crisp.

Stay in touch with others

The earphones have 2 built-in microphones per earpiece to reliably record your voice in almost any situation. They also use ENC noise cancellation technology to effectively eliminate background noise, so you can talk on the phone freely even in noisy places, knowing that your voice will be perfectly audible to your caller. You no longer have to worry about traffic noise, background noise or other people's

conversations!

Listen to music for longer

From now on, you can freely play games or listen to your favorite podcasts and music on your way to work or college without worrying about your earphones draining quickly. Thanks to the powerful battery, the earphones provide up to 4 hours when you use a 2.4 GHz connection or up to 4.5 hours using Bluetooth. Want to extend their operating time? No problem! They also come with a charging case that will let you play music for up to 16 hours. They also support QC2.0 fast charging, so it won't take you long to charge them.

Colorful RGB backlighting

Great sound quality goes hand in hand with a striking design. The HECATE GX05 earphones feature colorful RGB backlighting that enhances their modern design. It also allows you to choose from several different modes, so you can easily adjust their appearance to your preferences. Now you can highlight your style and express your personality while listening to your favorite music!

2 ways to connect wirelessly

Edifier HECATE GX05 gives you full freedom to choose how to connect to your favorite device. You can use Bluetooth 5.3, which provides a fast and stable connection over a distance of up to 10 meters. Or maybe you prefer even greater stability and no lag? Nothing simpler - choose a 2.4 GHz link, which guarantees ultra-low latency of 15 ms! This is the perfect solution for gaming enthusiasts who need maximum precision during gameplay. You'll find a USB adapter included, which will make it easy for you to connect to your computer, console or VR goggles. What's more, you can connect the earphones to two devices at the same time for greater convenience of use.

The perfect combination of design and functionality

The ergonomic design perfectly adapts to the shape of your ears, without causing uncomfortable pressure and discomfort compared to traditional over-earphones. This makes them perfect for long hours of gaming sessions! Their minimalist form, futuristic lines and metallic finish give them a unique character that is sure to delight many a sci-fi movie lover.
