

## Speaker Edifier MS50A (Brown)

Speaker Edifier MS50A (Brown)

Ref: 6923520269334

Edifier MS50A Speaker (brown).

Rediscover the magic of your favourite tunes with the Edifier MS50A! This speaker delivers very good sound quality, based on advanced DSP technology that emphasises the authenticity of the sound and minimises distortion. The speaker presents an attractive design to suit many interiors. The touch panel on its top allows intuitive control, volume adjustment and smooth song switching.

Your privacy is protected

The Edifier MS50A provides peace of mind when it comes to privacy, as it has no built-in microphone. This means you can enjoy meetings and moments of relaxation without worrying about interference or invasion of privacy. All information remains safe and secure.

Intuitive control

Thanks to the touch panel, controlling the volume and changing songs becomes extremely easy. Subtle finger movements allow you to adjust the sound to your personal preferences and seamlessly switch between your favorite tracks.

Enrich the experience with the app

The EDIFIER HOME app allows you to combine two MS50A speakers to create a surround sound experience that brings your surroundings to life. Backed by an amplifier and advanced DSP technology, the application delivers more realistic sound with higher quality, free of

distortion.

#### Power and support for your favorite platforms

The Edifier MS50A speaker boasts a powerful 40W output and 102mm speakers, which translates into incredible sound quality. The set is also compatible with Bluetooth 5.2, guaranteeing a stable connection. It supports music platforms such as Spotify Connect, Apple Music and Amazon Music, and is compatible with Amazon Alexa, making it the perfect music center for any home.

#### Wireless connection

The device supports wireless connections via Wi-Fi and Bluetooth, which offer a stable connection, low power consumption and extensive use. With the Edifier Home app, you can easily connect to your home network and use AirPlay 2 by streaming music from your iPhone, iPad or Mac, but also use Alexa by connecting the speaker to your built-in assistant device or to Amazon Echo. You also have the option to connect to Spotify and TIDAL Connect and create a synchronized music system spanning multiple rooms with the help of these services.
