

## Wireless headphones Edifier WH700NB, ANC (Black)

Wireless headphones Edifier WH700NB, ANC (Black)

Ref: 6923520246588

### Edifier WH700NB Wireless Headphones with ANC (Black)

The WH700NB are wireless headphones equipped with Active Noise Cancellation (ANC), which means they have active noise reduction functionality. Thanks to this feature, external noises are effectively suppressed, allowing you to enjoy music or have clear conversations without interruptions. The built-in Bluetooth 5.3 module ensures stable and fast connectivity with two devices simultaneously, allowing seamless switching between them. The 40mm dynamic speakers provide fantastic sound quality for up to 68 hours without ANC or 45 hours with ANC enabled. Just 10 minutes of charging gives you an additional 8 hours of playback! Equipped with a microphone with Deep Neural Network (DNN) technology, your voice remains clear even in noisy environments. With a gaming mode, the headphone delay is only 0.08 seconds, ensuring perfect synchronization of audio and video. Additionally, the ambient mode allows you to listen to music while staying aware of your surroundings, for instance, when waiting at a train station or airport. Sounds good, right? The Edifier Connect app further enhances your capabilities!

### Ultra-Long Battery Life

The built-in batteries in the WH700NB headphones provide up to 68 hours of music playback without ANC and up to 45 hours with ANC enabled—almost two full days! Is your battery running low, and you're only halfway through a movie? Just charge the headphones for 10 minutes, and you'll gain an additional 8 hours, allowing you to watch up to 4 more movies!

#### ANC, Active Noise Cancellation

Having a bad day and want to listen to music to lift your spirits, but the noise around you is making things worse? Activate the ANC feature, which will eliminate all background noise and allow you to relax and immerse yourself in your music.

#### DNN, Deep Neural Network

This feature ensures smooth conversations when using the WH700NB headphones. This precise technology captures your voice even in noisy environments, making it clearly audible to your callers. Constant repetition can be frustrating, but with DNN, that's a thing of the past!

#### Wireless Connection

The Edifier WH700NB wireless headphones are equipped with a Bluetooth 5.3 module, allowing you to connect wirelessly to devices such as smartphones, laptops, or computers. What's more, you're not limited to just one device - you can connect to two devices simultaneously and switch between them effortlessly! The headphones also feature 4 buttons for controlling playback, available modes, volume, and more. No need to reach for your phone; it can be up to 10 meters away, and the music will still play!

#### Choose the Right Mode for You

Are you a dedicated gamer who values smooth synchronization between audio and video? The gaming mode makes winning easier than ever with a delay of just 0.08 seconds! If gaming isn't your thing, and you prefer sports or travel, the ambient mode is the perfect choice if you want to listen to music while staying connected to your surroundings.

#### Lightweight and Compact

The Edifier WH700NB wireless headphones are lightweight, weighing only 271g, and have a foldable design, making them perfect for travels around the world, as well as for work or school. They easily fit into a backpack, accompanying you during special moments and making everyday life more enjoyable.

#### Enhance Your Experience with the App

With the Edifier Connect app, you can expand the capabilities of your headphones, gaining access to equalizer (EQ) settings, relaxing sound options, button customization, and more! Discover what else you can achieve with the Edifier Connect app!
