

## Outdoor Alarm Sirene ZigBee NEO NAS-AB06B TUYA

Outdoor Alarm Sirene ZigBee NEO NAS-AB06B TUYA

Ref: 6924715900629

### ZigBee NEO NAS-AB06B TUYA Outdoor Alarm Siren

The NEO NAS-AB06B siren will help you keep your home, orchard, office or car park safe. It offers both sound and light alarms and is IPX5 waterproof. You can also pair it with other devices and create smart scenes. The device is equipped with a powerful rechargeable battery, which can be charged by the built-in solar panel or the USB-C port. Please note: a ZigBee gateway (sold separately) is required for the siren to function properly.

### Sound and light alarm

The siren offers 3 alarm options - audible alarm, light alarm, and audible and light alarm. You also have a choice of 3 audible signals. The device is also distinguished by its high volume level - up to 100 dB at a range of 1 m, and up to 90 dB at a range of 3 m. This means that you can easily hear it - in case something happens, you will have time to react accordingly and prevent a break-in. What's more, if someone tries to damage the siren, you'll know about it too - you'll receive a notification on your phone.

### Multiple applications

Increase the level of security anywhere. The NEO siren will find many uses - it will work not only in the home garden, but also, for example, in an orchard, in a vineyard, on factory premises, at a school or in a car park. You can use it outdoors without fear - it is distinguished by its IPX5 water resistance. Rain or snow pose no threat to it - even extremely demanding weather conditions are no

threat to it.

#### Wireless operation - solar charging

The siren can operate wirelessly - you don't have to mount it near an accessible socket or worry about cables. The long-lasting 18650 battery ensures a long operating time, and the built-in solar panel allows it to be charged in just around 6-8 hours. In case of inclement weather, charge the siren using the USB-C cable. With NEO you are ready for any circumstances!

#### Plenty of possibilities with the TUYA / Smart Life app

Add the siren to the TUYA / Smart Life app and gain access to a multitude of exciting possibilities. Conveniently check the status of your device, change selected settings and receive key notifications. You can also connect your devices together and create smart scenes. Make it so that when the motion sensor detects someone's presence in the garden, the siren will automatically sound the alarm! If you want, share your appliances with other household members so that they too can control them remotely.
