

Smart Plug Matter NEO NAS-WR07WM

Smart Plug Matter NEO NAS-WR07WM

Ref: NAS-WR07WM

Intelligent Socket Matter NEO NAS-WR07WM

Make managing your smart home easier. The NEO NAS-WR07WM socket allows remote control of connected devices and is compatible with the Matter standard, meaning it works with ecosystems such as Amazon Alexa, Apple Home, Amazon Alexa, and Tuya. Its setup won't be a problem for you - just scan the QR code and follow a few simple steps.

Control devices with your smartphone

Not sure if you turned off the light before leaving for work? Or maybe you want to start the coffee maker before you get home so you can have a hot coffee right after returning? No problem - now you can do all this from your smartphone! The NEO socket allows remote control of connected devices, enabling you to turn them on and off, as well as create schedules for them.

Compatible with Matter standard

Thanks to its compatibility with the Matter standard, you can easily add the socket to most popular ecosystems, such as Google Home, Apple Home, Tuya, or Amazon Alexa. Connect them to the platform you use every day and conveniently control all your devices with one application - you don't have to switch between windows.

Even more conveniences

With the socket, you can not only conveniently manage devices but also save on bills. The product allows you to monitor energy consumption - based on the information it collects, you can easily determine when and how you use the most electricity, and then eliminate bad habits and forget about high fees! There is also a lock function available, which allows safe use of the socket in places where children are present.

Manufacturer

NEO

Model

NAS-WR07WM

Rated current

AC 85-250 V 50/60 Hz

Max. load

3680 W

Power consumption in standby mode

0.5 W

Wireless connectivity

2.4 GHz IEEE 802.11 b/g/n

Range

Up to 45 m

Operating temperature

From 0°C to 60°C

Operating environment humidity

From 0% to 85% RH (non-condensing)

Dimensions

50 x 50 x 85 mm
