

## Smart PIR Motion Sensor NEO NAS-PD07BH ZigBee Homekit

Ref: 6924715900971

Smart PIR Motion Sensor NEO NAS-PD07BH ZigBee Homekit

Smart PIR Motion Sensor NEO NAS-PD07BH ZigBee Homekit.

Take care of the security in your home. The NEO NAS-PD07BH sensor reliably detects motion - when someone comes within its range, you'll receive an instant notification on your phone. The device is compatible with the Tuya and Apple Home ecosystems, and can be powered in 2 ways - with 2 CR123A batteries or via micro USB. It has also been equipped with the function of protection against disassembly. Note: the product requires a Zigbee gateway (sold separately) for proper operation.

### Reliable motion detection

You no longer have to worry about an unwanted person getting into your home without you knowing about it. If a possible intruder gets near the NEO sensor, you'll get an instant notification on your phone! An alarm function is also available. The range of the device is a maximum of 10 m, and its detection angle is up to 120°. Nothing can hide from it!

### Protection against dismantling

Worried that an intruder may try to damage or dismantle the sensor? No worries - the NAS-PD07BH model is equipped with a special protection, just in case of such situations. If someone attempts to damage or dismantle it, you will immediately get a notification in the app. This will give you time to react!

#### Remote control

The sensor is very easy to use - just use the app. Among other things, you'll find event history, settings and a function to create automation. The product is also compatible with Tuya and Apple Home platforms, so you can connect it to your favorite ecosystem and enjoy even more convenient control of your chosen devices.

#### 2 power options

Enjoy the reliable performance of the speaker regardless of the situation. The device supports 2 ways to power it - via micro USB or with 2 CR123A batteries. This way it can easily work even when the power goes out!
