

Duracell USB-C cable for USB-C 3.2 1m (Black)

Ref: 5056304310432

Duracell USB-C cable for USB-C 3.2 1m (Black)

Duracell USB-C to USB-C 3.2 cable 1m (black)

Now you can charge your chosen devices or transfer files in no time. The USB-C to USB-C cable from Duracell provides a current and voltage of up to 3 A / 21.5 V, and thanks to the USB 3.2 Gen1 standard, it offers transmission speeds of up to 5 Gbps. At the same time, the product is incredibly durable and resistant to wear and tear. Moreover, it works with devices such as smartphones, tablets and wireless headphones.

Even faster charging

Don't waste time on prolonged waiting for your devices to be ready for use again. The cable guarantees an amperage and voltage of up to 3 A / 21.5 V, allowing you to charge your chosen equipment up to 4 times faster than standard cables (2.4 A / 5 V). Find out how convenient it is!

Instant file transfer

The cable is also distinguished by the USB 3.2 Gen1 standard, which allows for lightning-fast file transfers. It can provide transmission speeds of up to 5 Gbps! Thanks to this, it only takes a few moments to copy all the photos, videos or documents you need. You don't have to wait too long anymore!

Top quality workmanship

This practical cable will serve you well for a long time. Its connectors are extremely resistant to wear and tear, and the double nylon braid effectively protects it from damage. What's more, the copper cable allows you to enjoy greater charging efficiency and reliable performance.
