Smart socket switch WiFi Avatto DMS16-2 TUYA

Smart socket switch WiFi Avatto DMS16-2 TUYA
The Avatto Intelligent Induction Switch is a solution that brings a new quality to your home, allowing you to operate your lighting remotely. This compact product is designed with convenience and efficiency in mind, offering a range of features that will make your life simpler and more comfortable. The switch supports bidirectional control.

Small size, big capabilities
Despite its small size (39 x 39 x 19.4 mm), the switch offers great capabilities. With it, you can remotely control the lighting in your home, no matter where you are. Its installation is simple and requires no specialized skills. Connect it to your WiFi network and enjoy smart lighting.

Control with the app
Control the lighting in your home without getting up from the comfort of your chair. The mobile app allows you to intuitively manage the switch. You can turn the lights on and off, adjust their brightness, and set operating schedules - all from your smartphone.

Alexa, turn off the light
Control can be even easier. The Avatto DMS16-2 TUYA switch is compatible with voice assistants such as Amazon Alexa and Google

Home. This means you can control your lighting with voice commands. You no longer have to get out of bed to turn off the lights before bed - the smart switch will do it for you!

Light to suit the needs of the whole family
With the "Family Share" feature, you can share control of the switch with multiple users in your family. This is a great solution that will allow you to adjust the lighting to the current needs of all residents.

Timer function and scheduling
The Avatto DMS16-2 TUYA switch allows you to set timers and schedules for the lighting in your home. This allows you to save energy and adjust the lighting according to your needs. Let the light automatically turn off at a set time to signal bedtime, or wake you up in the morning when it's still dark outside the window.

Ability to group switches
Enjoy the ability to control lighting throughout your home! Avatto offers the ability to group individual switches, allowing you to control them simultaneously from within the app. Now, to turn off the lights in individual rooms with just a few clicks in the app.
