ONIKUMA K1-B gaming headphones (red)

Get ready for your next game and give yourself an edge right from the start. ONIKUMA K1-B gaming headphones can become almost an indispensable piece of equipment for any gamer. The 50mm transducers guarantee high sound quality and allow full immersion, while the ergonomic design allows you to enjoy long-lasting comfort. In addition, the omnidirectional microphone makes it easy to communicate with other team members, and the remote control integrated into the cable offers convenient access to the most important functions.

High-quality surround sound

Enjoy a dreamlike level of immersion and feel like the hero of your favorite game at your own desk. With 50-millimeter drivers, the K1-B headphones deliver realistic, detail-saturated sound that will leave you completely immersed in the game. Now you can easily hear and locate your rivals - don't be surprised and win your next duel!

Convenient operation

With the K1-B, everything you might need is at your fingertips. The headphones are equipped with a remote control integrated into the cable, with which you can adjust the volume or mute the microphone in an instant. You no longer have to search for the right settings every time!

Compatible

It doesn't matter what equipment you use most often for gaming. The K1-B headphones feature wide compatibility, so you can easily connect them to many devices. Selected PlayStation and Nintendo consoles, smartphones, tablets, computers or laptops - the decision is yours!

For your convenience

Do you often spend long hours playing games? Take care of your comfort! ONIKUMA headphones offer soft, shape-memory earcups that fit snugly to your ears without compressing them or causing fatigue. What's more, the adjustable headband will allow you to adjust the K1-B to the shape of your head, while the soft pad provides an extra level of comfort.

Facilitated communication

Gain the ability to communicate freely with other players and make it easier to plan your next team games. The K1-B headphones are equipped with a high-sensitivity omnidirectional microphone that provides excellent sound quality by reducing unnecessary noise - it will reliably register your voice. You can also rotate it 120° to adjust its position to suit your needs.
