

Electric Scooter Navee N65

Electric Scooter Navee N65

Ref: 6975293670268

Navee N65 electric scooter

Feel the wind in your hair and reach your destination in no time. The Navee N65 electric scooter is equipped with a 500W brushless motor and allows you to go at speeds of up to 20km/h. It is also distinguished by a range of up to 65km - don't be afraid of having to charge it frequently. The foldable design makes it much easier to transport and store the vehicle, while 2 brakes (E-ABS and disc) and built-in lights (front and rear) increase safety on the road.

Range of up to 65km

Don't worry that the scooter will discharge too quickly and thwart your plans. The Navee N65 is equipped with a durable 12.5Ah lithium battery that can provide a range of up to 65km. A daily commute to and from work? A relaxing trip out of town? How about riding your scooter to school? Forget about the need to recharge your vehicle frequently! An advanced BMS system is responsible for the safe and efficient operation of the battery.

Enjoy the ride

Ensure an even better riding experience. With its 500W brushless motor, the scooter stands out for its stable, reliable performance and can easily handle inclines of up to 25%. What's more, the N65 offers a large, non-slip platform with a width of 17cm. Also noteworthy is the reinforced frame, thanks to which the vehicle can withstand a load of up to 120kg.

Improved tires

With Navee you won't be intimidated by speed bumps and uneven sidewalks. The N65 scooter is equipped with 10-inch wheels with pneumatic tires that are 3" wide. This makes it perfect for even more challenging terrain. Enjoy a smooth ride and forget about unpleasant bumps! The tires of the scooter are also very durable and resistant to damage.

Choose from the available speed levels

Adjust the scooter to your expectations. The Navee N65 allows you to choose from two riding modes - the first one provides speeds up to 15km/h, and the second up to 20km/h. You also have a special mode for pedestrians, which will be ideal, for example, on the sidewalk or in the market. Calm driving in the city center? Or maybe developing slightly higher speeds in more desolate places? The N65 scooter will not let you down!

Foldable design

Forget about the problems of transporting and storing your scooter. The Navee N65 is distinguished by its folding design, so you don't have to waste time assembling or disassembling it every time. After folding, the vehicle does not take up much space - you can easily fit it in the trunk or hallway, and if necessary, you can easily move it from place to place. Folding and unfolding of the scooter is very simple and fast - it will not cause you any problem!

Safe ride

With Navee N65 you can enjoy not only a pleasant, but also safe ride. The vehicle is equipped with 2 brakes - an E-ABS front brake and a rear disc brake. Both provide short braking distances and reliable performance. There are also bright lights on the front and rear of the scooter, which will increase your visibility on the road and make it easier to navigate in the dark. Even if your next trip drags a bit and you find yourself in the night, you don't have to worry about a thing!

Convenient access to information

Now you have everything you might need in sight. On the handlebars of the scooter there is a small display that will give you convenient access to the most important information about its operation. With its help you can quickly check the current speed, battery charge level and power output. Forget about unpleasant surprises - with Navee you have everything under control. Just take a look!
