

Smart Bulb LED WB4 (2-pack) Gosund (RGB) E27 Tuya

Ref: 6972391289040

Smart Bulb LED WB4 (2-pack) Gosund (RGB) E27 Tuya

Gosund WB4 smart light bulb (two-pack)

WB4 from Gosund is a smart LED bulb with an E27 thread. It gives 800 lumens of light and has a life of about 20,000 hours. With 16 million available colors and a color temperature of 2700-6500K, the device will work in any situation. The ability to control it remotely via an app makes it easy to use, and the scheduling function is an added convenience. The set includes 2 WB4 bulbs.

Operate wherever you are

Directly through the Gosund or Smart Life app (Tuya App), we can turn the light on/off, adjust its brightness and color, and schedule various operating scenarios. After connecting the product to a local network and adding it to our app, we can control it from anywhere on earth where we have internet access. The device works with the latest systems: Gosund, IFTTT, Amazon Alexa and Google Assistant.

Easy to use

The Gosund Smart Life app is available in Polish, and in addition to the standard switching on and off of devices, it also offers scheduling, so connected bulbs can automatically turn on and off at specific times. You can also program the WB4's operation in your home to simulate the presence of an occupant, making it easier to deter a potential burglar. The Gosund equipment works only on 2.4GHz WLAN networks.
