

Fast Charger RocoREN GaN Pro 65W, 2x USB-C, USB (black)

Ref: 6975266731767

Fast Charger RocoREN GaN Pro 65W, 2x USB-C, USB (black)

RocoREN GaN Pro 65W mains charger, 2x USB-C, USB (black)

RocoREN's network charger is the perfect solution for anyone looking for a fast and efficient way to charge their devices. With support for multiple fast charging standards, including PD, QC3.0, FCP and more, you can renew the power of your devices up to 60% in just 30 minutes. Its maximum power output is as high as 65W, and its compact design will make it easy to store. It's also equipped with numerous safety features to ensure maximum security for your devices.

Charge your devices in the blink of an eye

Ready for express charging? The RocoREN charger offers charging with a maximum power output of up to 65 watts. It also supports many popular fast charging standards, including PD, PPS,, QC3.0, FCP, AFC, DCP, BC1.2 or Apple 2.4A. All of this will renew the energy of your iPhone 14 to 60% in just 30 minutes or Samsung S22 Ultra to 65% in about 35 minutes!

A new era of charging

Get ready for a revolution in charging! RocoREN's charger is based on advanced GaN Pro technology, which allows for unparalleled performance and efficiency. Thanks to this innovative technology, you can enjoy faster, more stable and safer charging of your devices, regardless of their requirements. GaN Pro also makes the RocoREN charger more compact and lighter than traditional chargers, making it perfect for traveling.

3 USB ports for added convenience

Ensure maximum charging flexibility and convenience! With three ports - two USB-C and one USB-A - the Rocoren charger allows you to charge multiple devices at once, without the need for multiple adapters. Now you can charge your smartphone, tablet, laptop or other devices all at once, saving valuable time and space

Maximum security

Concerned about the safety of your equipment while charging? With the Rocoren charger, you don't have to worry about a thing! It is equipped with numerous safety features that effectively protect you from potential hazards such as overloading, overvoltage, overcharging, short circuits or even overheating. So you can enjoy peace of mind and the assurance that your devices are in the best hands.
