Ref: 5906168431111

PetWant W8 dog and cat fountain/ drinker

PetWant W8 dog and cat water fountain/ drinker

Provide your pet with constant access to fresh, clean water. The PetWant W8 drinker offers a 4-stage filtration system, so it effectively eliminates various types of impurities. At the same time, the device works extremely quietly and is very easy to clean, and high-grade 304 stainless steel is used for its construction.

Large capacity

PetWant drinker is distinguished by its capacity of up to 3 liters, so you do not need to refill it too often. In the case of adult cats, this amount of water is enough for up to 8-12 days! So you can without fear go to work, go to an all-night party or go away for the weekend - your pet will not lack anything.

High quality workmanship, easy cleaning

The fountain is made of high-quality materials, such as 304 stainless steel, which is safe for pets and does not contain harmful BPA. It is also distinguished by its high durability and resistance to damage, such as scratches. What's more, cleaning the device will not be a problem for you - thanks to its modular design, you can easily disassemble it and wash it in the dishwasher (without the pump and filter).

Quiet operation

Do not be afraid that the drinker will generate annoying noise. The W8 model is equipped with a new and improved pump that is energy-efficient and works extremely quietly. As a result, you don't have to worry that the device will disturb you or startle your pet!

4-stage filtration

Take care of your pet's health and be sure that the water he drinks is completely clean and safe. The PetWant drinker uses a 4-stage filtration system that consists of a layer of cotton, activated carbon, ion exchange resin and a stone filter. It also has a special sponge that traps hair, dirt and food particles. All this makes the W8 fountain reliably eliminates unpleasant odors, softens water and removes impurities. Note: it is recommended to change the filter at least once every 2-4 weeks.
