

Filter ND16 PolarPro Quartz Line for 77mm lenses

Filter ND16 PolarPro Quartz Line for 77mm lenses

Ref: 817465029169

ND16 PolarPro Quartz Line filter for 77mm lenses.

Take your photography to the next level and discover the possibilities offered by the PolarPro Quartz Line ND filter! It provides excellent control over the amount of light reaching your camera, allowing you to get smooth and professional-looking shots even in bright lighting conditions. Perfect for shooting during bright sunny weather when the light is intense. Features exceptional scratch resistance, as well as water and oil resistance.

Gain control of the light

Whether you're creating portraits, landscapes or cityscape photographs, the ND16 filter puts you in control of every shot, ensuring excellent quality. With its ability to reduce the amount of light entering the lens by 4 stops, the ND16 filter allows you to control exposure and opens the way for experimenting with long exposures or achieving wide depth of field.
