WIFI mini Dogness smart food dispenser (white).

In the age of modern technology, even caring for our four-legged friends is becoming easier and more efficient. The WIFI mini Dogness smart food dispenser is an example of a device that combines advanced technology with concern for the needs of our pets. Its compact design, the ability to remotely control it through an app, and a number of features to ensure safe and hygienic feeding, make it an indispensable helper in any home where a dog lives. With Dogness, you can be sure that your pet is fed regularly, healthily and safely, even when you're not around.

Remote control and monitoring

With WiFi connectivity and a dedicated app, the Dogness smart food dispenser allows you to control your pet's feeding process from anywhere. You can set a feeding schedule, adjust portion sizes and monitor the amount of food in the container. The app also alerts you when the food level is low, so you'll always know when it's time to refill. It's convenience and peace of mind for any owner.

Hygienic stainless steel bowl

Food-grade stainless steel feeding bowl is a guarantee of hygiene and health safety for your pet. It is easy to disassemble and clean, which prevents the growth of bacteria and protects against cystitis in pets. This is an important aspect for owners who care about the health of their pets.

Anti-clogging system

A unique patent, using an impeller to prevent clogging, guarantees reliability and continuity of the feeding process. Thanks to this solution, you can rest assured that your pet's feeding will not be unexpectedly interrupted, and feeding will run smoothly and efficiently.

Double power protection

With unforeseen situations in mind, such as a power outage, the Dogness smart food dispenser is equipped with a dual power supply system. It supports both USB and battery power, ensuring continuous feeding even in difficult conditions. It's an extra layer of security so you don't have to worry about your pet's hunger.

Compact design and capacity

The compact size of the dispenser (346 x 188 x 259mm) makes it fit into any corner of the house without taking up much space. Despite its small size, its 2L container is capable of holding as much as 1kg of food, ensuring efficient and long-lasting feeding without the need for constant refilling.
