Water Fountain for pets 1l Dogness (white)

Ref: 5905316149403

Dogness 1L Dog and Cat Smart Fountain/Drinker (white).

Dogness D03 was created to meet the natural needs of pets, offering access to fresh and clean water around the clock. With a capacity of 1 liter and compact dimensions (143 × 128 mm), it is ideal for home use. What's more, it works extremely quietly, with a volume of less than 40 dB, ensuring that pets can drink water without stress or anxiety.

Response to the needs of the pet

The smart fountain is distinguished by its patented water outlet and diagonal design, which not only makes the drinking process more attractive to pets, but also enriches the water with oxygen. This design promotes an increase in the animals' daily water intake, which is key to maintaining the proper functioning of their urinary system.

Clean water thanks to advanced filtration

One of the most important advantages of the Dogness D03 dispenser is its multi-stage filtration system. Equipped with patented activated carbon filters and nano-filters, it effectively blocks fine contaminants, ensuring the circulation, purification and removal of sediment from the water. This ensures that pets have constant access to water of the highest quality.

Ease of use and cleaning

An additional advantage of the dispenser is its construction in safe material, which not only guarantees safety for the health of animals, but also makes it easy to disassemble and clean the device. This makes keeping the dispenser clean easier and more hygienic.
