Ref: 5906168432323

Diving Filter Sunnlylife for Osmo Action 4/3 (magenta)

Sunnlylife dive filter for DJI OSMO Action 3/4 (magenta)

Ready for an underwater adventure? Meet the Sunnlylife Dive Filter for DJI OSMO Action 3/4 camera in magenta. This indispensable accessory will allow you to discover the underwater world in all its glory. Dive up to 40 meters below the water's surface, and the rugged design provides a perfect seal, protecting your camera from water, shock and dust. Equipped with 306 stainless steel buttons, the filter is corrosion-resistant for long-lasting durability even in harsh marine environments.

Improve the quality of your underwater photos

Color filters are a key element for getting great underwater photos. The Sunnlylife magenta color filter is ideal for green-tinted waters at depths of about 4 to 24 meters. It effectively reduces the effects of green tone or the green tint effect caused by algae, correcting color deviations. Whether you are exploring coral reefs or admiring marine species, this filter will make your photos and videos reflect the true beauty of the underwater world.
