### 2-in-1 lightning to lightning + DC 3.5mm audio adapter Mcdodo CA-5540

The Mcdodo CA-5540 adapter is a compact and convenient 2-in-1 device for iPhone users to charge their device and listen to music at the same time. With a practical design featuring a Lightning charging port and 3.5mm audio input, this adapter is ideal for those who don't want to give up their favorite sounds while charging their phone. Utilizing a high-resolution audio decoding chip, it provides clear sound without distortion, while offering support for fast charging with up to 5V/2.4A.

### Excellent sound quality and easy control

The CA-5540 adapter features a built-in high-resolution audio decoding chip that guarantees natural, smooth sound and high fidelity audio for an unparalleled listening experience. The device supports the headphone's built-in controller, allowing you to easily switch songs and adjust the volume without having to frequently unlock the screen. Importantly, this adapter does not support phone call functionality, which is worth keeping in mind when using it.

### Universal compatibility and high mobility

The Mcdodo CA-5540 adapter is designed for broad compatibility with Apple devices, supporting iPhone models from 6 to the latest iPhone 14, as well as iPads with Lightning input. Its stable compatibility, guaranteed by synchronization with Apple system updates, eliminates the risk of unwanted messages. The high-quality aluminum case ensures durability, corrosion resistance and fast heat

dissipation, making it ideal for use at home, work or on the go.

#### Ease of use and reliability

The lightweight and easy-to-carry design of the Mcdodo CA-5540 adapter makes it the perfect companion for active people who value convenience and functionality. Providing you with the ability to listen to music, watch movies or enjoy other forms of entertainment while charging your phone, without current interference and with clear sound, this adapter becomes an essential accessory for any iPhone user.
