

Magnetic Car Mount for Phone Mcdodo CM-4050

Magnetic Car Mount for Phone Mcdodo CM-4050

Ref: 6921002640503

Mcdodo CM-4050 magnetic car phone holder

The Mcdodo CM-4050 magnetic car mount is an innovative solution that provides a secure and stable mount for your smartphone while driving. Thanks to the use of the strongest N52-class magnets, the holder guarantees that your phone will stay in place even during dynamic driving. In addition, the silicone coating protects your phone from scratches, which is especially important for maintaining the aesthetics of your device.

Versatility and full compatibility

CM-4050 is a universal holder, compatible with any make and model of phone, making it an extremely practical accessory. Full compatibility with the Apple MagSafe standard ensures easy and fast attachment of devices without the need for additional adapters or accessories.

Flexibility and convenience of use

The mount offers a fully adjustable 360° angle, allowing you to easily adjust the position of your phone to suit your preferences. This solution allows the driver to position the smartphone screen in the most optimal way, making it easier to use navigation apps or music players.

No interference for the signal

The mount's design has been engineered to avoid interfering with GPS or network signals, which is crucial for smooth navigation use and maintaining continuous connections. The clip mount allows you to quickly and easily place the mount in your preferred location on the dashboard or any other convenient place in your car.

High quality construction

Made of high-quality ABS material, the holder is not only durable, but also lightweight (weighs only 60g) and compact (dimensions 60x40x8mm), which further enhances the comfort of use. Included in the kit you will find a Mcdodo Suspension mount, a magnetic ring to attach to your phone or a case with which any phone model will fit the mount.
