Smartwatch Blitzwolf BW-HL5 (Black)

# Blitzwolf BW-HL5 Smartwatch (Black)

The Blitzwolf BW-HL5 smartwatch was designed with users who value functionality, convenience, and style in mind. Its curved design not only ensures a perfect fit on the wrist but also provides an elegant look. Thanks to a wide range of dials and menus to choose from, every user can customize the watch to their individual preferences. The Bluetooth 5.3 version guarantees a stable connection, and compatibility with Android and iOS ensures versatility of use. The watch also offers an impressive set of features, including health and activity monitoring, IP67 waterproofing, and long battery life on a single charge, making it an indispensable companion in everyday life.

# Ergonomic Design

The Blitzwolf BW-HL5 stands out with its ergonomic design, thanks to a slightly curved structure that perfectly complements the wristline. This design not only increases comfort throughout the day but also provides better display readability. The 2.1-inch IPS screen with a resolution of 320 x 386 pixels offers bright and clear colors, making it easier to read notifications and data under any conditions.

## Bluetooth 5.3 Version

Modern Bluetooth 5.3 technology ensures fast and stable connection with your smartphone, minimizing the risk of connection drops. This allows users to enjoy smooth synchronization of notifications about calls, messages, and data from health and sports applications, without worrying about losing important information.

### IP67 Waterproof

The Blitzwolf BW-HL5 is designed for active users, offering IP67 level waterproofing. This means that the watch is resistant to dust, sweat, and temporary immersion in water, making it the perfect companion during workouts, swimming, or everyday use regardless of weather conditions.

### Activity and Health Monitoring

The watch offers advanced health monitoring features, such as heart rate, blood pressure, blood oxygen level (SpO2), and glucose monitoring, allowing for real-time tracking of key health indicators. Additionally, numerous sports modes, a pedometer, calorie counter, and distance meter enable customization of monitoring to individual needs and training goals of the user.

#### Long Battery Life on a Single Charge

Thanks to a 300mAh battery capacity, the Blitzwolf BW-HL5 provides up to 7 days of use on a single charge, and can last up to 20 days in standby mode. The magnetic charging system allows for quick and convenient energy replenishment, minimizing the time needed to restore full functionality of the device.
