Earbuds TWS Mcdodo Lite HP-3300 (black)

Forget about annoying noise and focus on your favorite music. Mcdodo HP-3300 Earphones support ANC noise reduction and provide excellent sound quality thanks to 13-millimeter drivers. They also stand out for their long battery life and rely on reliable Bluetooth 5.3 transmission. They are exceptionally comfortable as well - providing you with the desired comfort during use.

Block out the noise

Want to block out the annoying noise in the office or on the bus? Mcdodo Earphones will help you with that! The HP-3300 model features reliable ANC noise reduction, allowing you to forget about unnecessary, irritating sounds and focus on what matters most to you - such as your favorite podcast.

Designed for calls

Thanks to the dual microphones of the earphones, you can make phone calls freely wherever you are. Furthermore, ENC technology ensures effective reduction of surrounding noises. All of this gives you the confidence that you and your caller will hear each other without any issues.

Fantastic sound quality

Discover previously unheard details of your favorite songs. The earphones are equipped with dynamic 13mm drivers, ensuring excellent sound quality. Powerful bass, rich mid-tones, and clear high tones – all of this will surely delight any music lover!

Enhanced design

The HP-3300 model case is designed to prevent accidental closure during use. The ergonomic design of the earphones is also noteworthy, ensuring they fit perfectly in your ears, don't fall out, and don't exert uncomfortable pressure. Additionally, with IPX4 waterproofing, you can listen to music worry-free even in the rain or during intense workouts. The set also includes interchangeable ear tips in 3 sizes (S, M, and L).

Bluetooth 5.3

Mcdodo Earphones are not only perfect for listening to music but also for watching movies or playing games. Thanks to advanced Bluetooth 5.3 technology, they can provide fast, stable wireless connection – without lag or delays. Enjoy reliable transmission and get even more enjoyment out of your entertainment!

Long playback time

Don't worry about the earphones running out of battery quickly. Their battery life extends to 6 hours, and the dedicated case allows you to extend it to up to 24 hours. Charging the HP-3300 model won't take long – about 1.5 hours is enough. But that's not all. The case is equipped with a small display that allows you to conveniently check the battery level of both the case and each earphone.

Convenient touch control

Gain convenient access to the most important functions of the earphones – you don't have to reach for your smartphone every time. Mcdodo HP-3300 is equipped with practical touch panels, allowing you to, for example, switch songs, pause playback, answer calls, activate ANC noise reduction, or activate voice assistant. Now everything you need is at your fingertips!
