

Portable Coffee Machine HiBREW H4B_GN

Portable Coffee Machine HiBREW H4B_GN

Ref: 5906168432606

HiBREW H4B_GN 3-in-1 Portable Coffee Maker.

Get the ability to brew delicious, aromatic coffee wherever you go. The HiBREW H4 portable coffee maker is lightweight and handy enough to accompany you almost anywhere. It heats up quickly and has a pressure of 15 bars. It is equipped with a special cup, which was created from health-safe tritan. The device is compatible with Nespresso and Dolce Gusto capsules, and also allows you to prepare ground coffee. In the set you will also find an AC adapter, a practical case and a folding stand for the machine.

Can always have it with you

Enjoy delicious, aromatic coffee wherever you are. The H4 coffee maker is extremely lightweight and portable - it weighs only 600 grams, and thanks to its compact size you can easily fit it in your backpack or travel bag. So you can take it with you on vacation, under a tent, on a camper trip or to work. You no longer have to give up your favorite drink when you leave home! Safe and convenient transportation of the device is made possible by the included case.

15 bars - excellent taste

The espresso machine is distinguished by a pressure of 15 bars. It is also equipped with a high-quality heating element, which is responsible for the even distribution of heat. All this means that with its help you can prepare delicious coffee in no time, which will delight you with a rich aroma, velvety texture and excellent taste. What's more, the device allows you to brew both hot and cold.

Prepare your favorite coffee

With HiBREW, almost nothing limits you - now you can easily prepare exactly the coffee you like. The H4 coffee maker is compatible with Dolce Gusto and Nespresso capsules. It also allows you to brew ground coffee. Choose the beans you use every day or try something new! At home, at work, on vacation - with HiBREW you will prepare your favorite coffee in almost any situation.

Easy to use

With the H4 coffee maker you can easily make a delicious, aromatic drink. All you have to do is place the capsule or ground coffee in the right place, then fill the reservoir with water, plug the machine in and press the button. After about 60 seconds, the drink will be ready! It is also possible to prepare hot coffee using cold water. To do this, use the included AC adapter. The coffee will be ready after about 5-8 minutes. You can also use a car charger. Note: when the device is connected via USB cable, the heating function is not available - in this situation, it is possible to brew coffee only with hot water.

Practical mug

You don't need to carry extra glasses with you. The coffee maker is equipped with a small mug. It is made of high-quality tritan - a plastic that is also used for baby bottles. It does not contain harmful BPA and is safe for health. All this means that you can comfortably drink stimulating, aromatic espresso at almost any time.
