

## Drip Coffee Maker HiBREW H12

Drip Coffee Maker HiBREW H12

Ref: 5906168432613

HiBREW H12 pour-over coffee maker

Discover great tasting coffee with the HiBREW H12 multifunctional coffee maker. This 3-in-1 device combines a pour-over coffee maker, coffee brewer and tea brewer, offering a variety of flavors and aromas with every use. A water container with a measuring cup provides information on how many cups of coffee will be poured into the pot, while a removable funnel makes drip coffee preparation easy. The machine's thoughtful design, smart features and sleek design make it a great addition to any kitchen.

Multifunctionality and high quality brewing

The HiBREW H12 is not only a pour-over coffee maker, but also a device that allows you to brew coffee and tea, making it an ideal choice for any lover of these beverages. The use of a high-density stainless steel filter ensures the delicate flavor of each brew, while the keep-warm function allows you to enjoy it for a longer period of time.

Simple operation and easy cleaning

The HiBREW H12 coffee maker features intuitive one-button operation, making its use simple and convenient. The "anti-drip" function eliminates the problem of unsightly coffee stains and drips, and the possibility of quick cleaning further enhances the convenience of use. What's more, the high-quality glass used for the pot is resistant to high temperatures, and the transparent funnel makes it easy to control the brewing process.

Enjoy the aroma of coffee even longer

The HiBrew pour-over coffee maker is completely safe to use. Smart features such as automatic power-off after 40 minutes will allow you to prepare your coffee in the morning and leave home with a calm head, without worrying whether you remembered to turn the machine off. Quick heating of water, or keeping the finished beverage warm, ensure that your instant coffee will retain its pleasant aroma and richness of flavor for longer.
