Darkflash DN 240 CPU liquid cooling (black)

Darkflash DN 240 computer water cooler (black)

Keep your computer's CPU at the right temperature with the Darkflash DN 240 water cooler. With 2 fans of 120 mm each and a copper base, it efficiently dissipates heat while operating extremely quietly. In addition, the colorful ARGB backlighting will add an original touch to your computer, creating stunning visual effects. The product is compatible with both Intel and AMD processors.

2 120 mm fans

2 120 mm fans and quality hydraulic bearing ensure efficient CPU cooling (up to 1.6 l/min). Thanks to special anti-vibration pads, the noise level is low, at only about 30 dBA. In addition, the fans support PWM function, automatically adjusting their speed (800-1800 RPM) according to the CPU temperature.

Optimal cooling

Copper cooling base, hydraulic bearing, efficient pump and durable tubes ensure efficient heat dissipation and extended unit life of up to 40,000 h. The heatsink's heavy-duty aluminum design ensures optimal airflow and eliminates the risk of leaks.

Hassle-free installation

The cooling unit is compatible with various Intel and AMD processor models, and its installation is simple. Synchronization with the
