

Darkflash CF8 PRO 3in1 Computer fan set

Darkflash CF8 PRO 3in1 Computer fan set

Ref: 4710343790839

Darkflash CF8 PRO 3-in-1 computer fan set.

Take care of your computer's reliable cooling while giving it a unique character. Darkflash CF8 PRO fans feature exceptional performance, so they will effectively prevent your hardware configuration from overheating. At the same time, they are very easy to install. They are also distinguished by colorful RGB backlighting - combine them with a transparent case, for example, and get amazing visual effects! The set includes 3 fans.

Efficient cooling system

Do you want to play dynamic games or use demanding programs without interference? No problem - with Darkflash CF8 PRO you don't have to worry that your computer will overheat. The fans run at about 1100 RPM, ensuring reliable cooling of your hardware. At the same time, they operate surprisingly quietly - their volume level does not exceed 22.5 dBA. Forget about the annoying noise!

Colorful backlighting

With Darkflash, your computer will not only surprise you with performance, but will also look great. The fans are equipped with colorful RGB backlighting and are compatible with ASUS AURA SYNC (only 5 V), you can synchronize them with your motherboard. Your hardware configuration doesn't support it? No worries - the CF8 PROs offer up to 47 lighting effects to choose from. Conveniently switch between them with the handy remote control. Try them all out!
