Superfire HL75-S Headlamp, 350lm, USB

The Superfire HL75-S Headlamp, 350lm, USB, is an excellent tool for anyone who needs a reliable source of light in any situation. This compact and versatile Superfire headlamp not only provides excellent illumination but also exceptional convenience.

Powerful 350lm Brightness

The Superfire HL75-S flashlight offers exceptionally bright light with 350 lumens, which will perfectly illuminate even the darkest corners. Whether you're under a tent, in rugged terrain, or in need of emergency lighting, this flashlight will meet the requirements in various situations.

Long 7-Hour Runtime

The Superfire HL75-S flashlight is not only practical but also efficient. With an impressive 7-hour runtime on a single charge, you can be sure you won't be left in the dark at crucial moments. It's the perfect solution for night hikers and long expeditions.

Fast USB Type-C Charging 3.5h

With the USB Type-C charging port, you can charge the HL75-S flashlight in 3.5 hours. That means you can get back to action faster than ever, without having to wait for lengthy charging processes.

IP44 Waterproof

This flashlight is ready for any weather. With splash and moisture resistance at IP44 level, you can confidently use it even on rainy days without worrying about its functionality.

Multiple Operating Modes

The Superfire HL75-S flashlight features seven different operating modes, including strong light, moderate light, weak light, strobe light, SOS light, red light, and red strobe light. This means you can adjust the lighting to your needs and situation, making it an ideal tool for both everyday use and extreme conditions.
