Computer case Darkflash DK352 Mesh (white)

Darkflash DK352 Mesh Computer Case (white).
Create your dream computer that not only surprises you with performance, but also looks great. The Darkflash DK352 Mesh case is compatible with a wide range of components, so it offers plenty of expansion options. It allows you to prepare an optimal cooling system and is distinguished by a transparent side panel, which, for example, allows you to expose RGB backlit components and achieve interesting visual effects. You also have several useful ports at your disposal, including USB 3.0, and the kit also includes 4 aRGB fans.

Many expansion possibilities
The DK352 Mesh case is distinguished by its spacious interior, which allows you to install a wide variety of components, while at the same time enabling you to perfectly organize your space and make it easy to stay organized. For example, you can easily install 2 SSDs and 2 HDDs, a graphics card up to 340 mm in length, a CPU cooler up to 160 mm in height and a 175 mm power supply.

Carefully thought-out design
Give your computer a stylish, modern touch. The DK352 Mesh case features a specially designed front panel with a mesh structure, which stands out with its original industrial design. Its additional asset is a transparent side panel, thanks to which it is possible to display selected components in an interesting way, such as the included aRGB fans. In addition, wing screws make its disassembly take only a moment, which allows you to replace parts or clean the interior without any problems. There is also a special dust filter at the top of the

case - you can easily replace or clean it.

Useful buttons and ports
Build yourself a computer that you will be comfortable using. The DK352 Mesh chassis is equipped with several useful ports, including an audio port and 2 USB 3.0 ports for fast charging and instant file transfers. So you can significantly improve your work and save time!

Optimal cooling system
With Darkflash, you don't have to worry about your PC getting excessively hot - even during extremely dynamic games. The DK352 Mesh case allows you to install up to 6 120 mm fans or 4 140 mm fans. You will also find space for water cooling up to 360 mm. Thus, you will easily take care of optimal working conditions for your hardware configuration!
