

## Desktop Charger Blitzwolf BW-i9 110W PD 3xUSB-A, 2xUSB-C (b)

Ref: 5906168431173

Desktop Charger Blitzwolf BW-i9 110W PD 3xUSB-A, 2xUSB-C (black)

Blitzwolf BW-i9 110W PD 3xUSB-A, 2xUSB-C Wall Charger (Black)

In the era of modern technology, where every device requires a reliable power source, the Blitzwolf BW-i9 110W PD wall charger stands out among the competition with its versatility and efficiency. Offering a powerful 110W output and support for a wide range of charging protocols such as PD3.0, QC3.0, PPS, AFC, FCP, SCP, PE, and APPLE, it is the ideal solution for users with multiple devices. With three USB-A ports and two USB-C ports, it enables simultaneous charging of up to five devices, adjusting the power output to the individual needs of each. Its compact dimensions make the Blitzwolf BW-i9 charger incredibly practical.

### Versatile Charging Options

One of the most impressive features of the Blitzwolf BW-i9 charger is its ability to power up to five devices simultaneously, making it incredibly versatile. Equipped with three USB-A ports and two USB-C ports, this charger can adjust its charging performance to the specific needs of each connected device. With a maximum output of 110W, it ensures fast charging for all your devices, from smartphones and tablets to laptops and other electronic devices, making it the perfect solution for those in need of efficient and fast power source.

### Advanced Charging Protocols

The Blitzwolf BW-i9 is equipped with advanced charging protocols, including PD3.0, QC3.0, PPS, AFC, FCP, SCP, PE, and APPLE. These

technologies not only ensure compatibility with a wide range of devices but also optimize the charging process to be faster and safer. Intelligent power output adjustment to the specific requirements of the device minimizes the risk of battery damage while maximizing charging efficiency.

#### High Power and Efficiency

The total power of 110W available in the Blitzwolf BW-i9 charger ensures that all your devices will be charged optimally. High charging efficiency is possible thanks to intelligent power distribution among the ports, meaning you can quickly charge both small gadgets and high-power devices like laptops simultaneously.
