HP DHH-1126 Wired earphones (black)

Ref: 6972431713108

HP DHH-1126 wired headphones (black)

Take your favorite music on a walk, to work, on a trip - wherever you want. The HP DHH-1126 headphones provide clear sound without distortion and allow you to talk on the phone. What's more, they don't cause discomfort during prolonged use, and the switch integrated into the cable allows you to manage your music player.

Lose yourself in the music

Listen to music in even better quality. The headphones use 10-millimeter drivers, which are responsible for high-end sound reproduction. As a result, you can enjoy clear sound without distortion and richness of detail.

With comfort in mind

Use the HP DHH-1126 for as long as you need without feeling tired. The headphones feature an ergonomic design and are contoured at a 45° angle. What's more, they effectively isolate outside noise, reducing ambient noise.

Switch integrated into the cable

Customize the sound to suit your needs. The headphones have a switch integrated into the cable, which you can use to control your music player. Conveniently adjust the volume, stop/resume playback and skip songs. Now you have the most important functions at your

fingertips.

#### Built-in microphone

Conveniently conduct conversations without having to reach for your smartphone. The headphones have a built-in omni-directional microphone that accurately captures sound and reduces noise. As a result, your caller hears you loud and clear.

#### Thoughtful solutions

The headphones are equipped with a digital chip and USB-C connector, making the HP DHH-1126 compatible with a range of different devices. In turn, the 1.2-meter cable is tangle-, pull- and wear-resistant, so you can be sure it will last you a long time.
