HP DHE 8001U Wired headphones (black)

Ref: 6972431712453

HP DHE 8001U wired headphones (black)

Immerse yourself in gameplay with the HP DHE 8001U. The headphones provide stereo sound for greater immersion and are extremely comfortable. What's more, they are equipped with an adjustable microphone and blue backlighting. You will successfully connect them to devices with a USB port, such as a computer or laptop.

Omni-directional microphone

Plan your next strategy with other players. The HP DHE 8001U wired headphones feature an omni-directional microphone that accurately captures your voice from all directions. As a result, you'll be sure that your interlocutor will hear every word you say. What's more, you can adjust its position for added convenience.

Stereo sound

Feel like the hero of your favorite title. The headphones use 50mm drivers and deliver stereo sound full of detail. So you can hear approaching vehicles or the footsteps of an incoming enemy and quickly fend off attacks. In addition, the headphone's built-in dial allows you to quickly and conveniently adjust the volume level.

Long-lasting comfort

Play for long hours without feeling tired or uncomfortable. The HP DHE 8001U wired headphones offer large, soft ear cups made of skin-friendly material. They conform to the shape of your head and, like the headband, do not cause uncomfortable pressure. In addition, the blue backlight can be turned off at any time if you don't need it.
