HP DHE-8005U Wired headphones (black)

The HP DHE-8005U headphones are an excellent solution for those who expect not only excellent sound but also comfort and a stylish appearance. Equipped with 40mm drivers, they provide rich and clear sound that will immerse you in your favorite music or game. Their additional advantage is the colorful RGB lighting, which gives them a modern character.

### Top-Level Sound

The 40mm drivers and wide frequency response from 20 Hz to 20 kHz ensure excellent spatial sound quality, meeting the expectations of even the most demanding users. Get ready for deep bass, pleasing mid-tones, and crystal-clear high tones - with HP, no detail will escape you. Now listening to music, watching movies, or playing games will become even more enjoyable!

### Practical Microphone

Do you often play online games? Do you want to comfortably communicate with friends during gameplay? Or perhaps you participate in video conferences or online training sessions? The HP DHE-8005U headphones will excel in these and many other applications! They are equipped with an omnidirectional microphone with excellent sensitivity, which will accurately register your voice in almost any situation. It is also distinguished by its rotating, adjustable design, allowing you to customize it to your needs.

### Colorful RGB Lighting

The HP DHE-8005U headphones stand out with impressive RGB lighting, giving them a unique character. Thanks to it, they immediately attract attention and look incredibly stylish. They will surely appeal to many gaming enthusiasts!

### User Comfort

Enjoy the ultimate comfort. The adjustable headband and soft ear cushions of the headphones ensure a comfortable fit even during long hours of gaming or listening to music. You also have buttons conveniently placed to quickly mute the microphone or turn off the lighting. Additionally, the built-in dial allows for convenient volume control. With HP, all the most important functions are always at your fingertips!
