Delux M618XSD Wireless Vertical Mouse

The Delux M618XSD Wireless Vertical Mouse will satisfy even the most demanding users. It is extremely easy and convenient to use - it is equipped with an OLED display that makes it even easier to use. The device offers 5 levels of DPI adjustment up to 4000 and thanks to its 1000mAh battery it provides long working time. You can connect the mouse to your computer in 3 ways.

DPI adjustment

Adjust the mouse performance to your needs. The M618XSD provides 5-way adjustable speed up to 4000DPI. This makes it perfect for everyday use, work or even gaming. Windows users can also use the special software to further customize the mouse performance to their expectations.

3 ways to connect

The mouse supports 3 ways of connection - choose the right one for you! If you don't want to worry about the battery level, connect it to your computer with a cable. Or you can connect it wirelessly via Bluetooth 4.0 or 2.4G. What's more, you can connect the mouse to 4 devices at the same time.

Long runtime

The long-lasting battery makes the mouse capable of running for up to 2 weeks on a single charge, assuming you use it for about 8 hours a day. To charge it, simply connect it to a power source using the included USB-C cable.

Ergonomic design

The M618XSD mouse fits perfectly in your hand and provides unparalleled comfort. Wrist pain and fatigue are a thing of the past! The device is made of high quality materials that make it pleasant to the touch and durable. The built-in OLED display allows you to conveniently check the battery capacity, current connection mode and DPI, and an additional wheel allows you to operate the mouse with your thumb. A magnetic wrist rest is also included.

Configurable backlight

The device attracts attention with its modern, original design. It is equipped with a colorful backlight, which gives it a unique character. You can customize it to your liking using the software available for Windows device users. In addition, the mouse detects movement - when you bring your hand close to it, the backlight will automatically turn off.
