Wireless bluetooth speaker Blitzwolf BW-WA6 RGB 80W

Bluetooth Wireless Speaker Blitzwolf BW-WA6 RGB 80W

The Blitzwolf BW-WA6 RGB 80W speaker is a device that not only provides high-quality sound but also becomes the center of any party with its innovative features. With its help, you can liven up any house party, karaoke night, or relaxing session with your favorite tunes. It stands out with dual speakers, three equalizer modes, RGB lighting effects, support for two microphones (sold separately), and versatile connectivity options, including USB-A and Bluetooth 5.0. Its advanced features, sturdy construction, and ease of use make it the perfect choice for music enthusiasts.

Dual Speakers and 80W Power

The Blitzwolf BW-WA6 is equipped with two speakers, each with a diameter of 78mm, which, combined with an impressive power of 80W, guarantee deep bass and crystal-clear high tones. This ensures that the music sounds exceptionally dynamic and full, regardless of the genre. The powerful battery provides up to 6 hours of continuous playback, making it the perfect companion for long evenings.

Equalizer Modes and Sound Control

The speaker offers three equalizer modes - equilibrium, vocal mode, and bass mode - allowing you to adjust the sound to your preferences and the type of music being played. Physical buttons on the housing allow for easy switching between equalizer modes, volume adjustment, and track skipping, giving the user full control over the music being played.

RGB Lighting Effects

RGB lights not only add aesthetic charm to the speaker but also create a unique atmosphere during music listening or karaoke singing. The ability to change colors and lighting effects depending on the mood or music rhythm makes every music session even more magical.

Versatile Connectivity Options

The Blitzwolf BW-WA6 speaker offers not only standard Bluetooth 5.0 connectivity but also a USB-A input for flash drives, power sources, or OTG smartphones. Additionally, it supports TF cards up to 128GB and USB memory, making it an incredibly versatile device capable of playing music from various sources.

Powerful Features

The Blitzwolf BW-WA6 also features a sturdy metal and PC construction, IPX5 water resistance, and compact dimensions, making it a durable device ready for any adventure.

Package Contents
