Wireless Mouse Delux M399DB BT+2.4G

Ref: 6938820408598

Delux M399DB Wireless Optical Mouse

The Delux M399DB Wireless Optical Mouse is perfect for both work and play. It comes with 2 USB receivers that allow you to connect it to your computer via Bluetooth 4.0 or 2.4G. The durable Li-ion battery ensures a long working time, and the ergonomic design guarantees comfort of use. The device also allows you to adjust the speed up to 4000DPI and works surprisingly quietly.

Wide compatibility - many connection possibilities

The mouse is compatible with most common devices such as laptops, computers, tablets and even smartphones. As many as 2 USB receivers, which you'll find under the M399DB's magnetic casing, allow you to pair it with the hardware of your choice using Bluetooth 4.0 or 2.4G. You can also connect it wired to charge it while in use, for example.

Lightweight, portable, ergonomic

The device is lightweight and compact enough to accompany you almost anywhere. It will not take up too much space in your handbag or backpack. The matte surface of the mouse not only looks really elegant, but is also pleasant to the touch and resistant to fingerprints. What's more, M399DB feels great in your hand and works very quietly - the clicking noise won't disturb anyone.

DPI adjustment

Adjust the mouse performance to your expectations. M399DB allows you to adjust the speed in the range of 800 / 1200 / 1600 / 2400 / 4000 DPI. This makes it perfect for everyday use, at work or even during the dynamic game. What's more, the applied technological solutions ensure incredibly smooth operation of the mouse.
