

Computer case Darkflash DRX70 MESH + 4 RGB fans (black)

Ref: 4710343798576

Computer case Darkflash DRX70 MESH + 4 RGB fans (black)

Darkflash DRX70 MESH computer case + 4 RGB fans (black)

The Darkflash DRX70 case is an excellent choice for anyone who wants to create a high-performance, yet modern, stylish computer. It offers plenty of expansion options and is compatible with many popular components. It also allows you to take care of a proper cooling system and provides access to the necessary ports, including USB 3.0. Its additional advantage is a front panel with a mesh structure and a transparent side panel, thanks to which you can display selected components in an interesting way. The kit also includes 4 RGB fans.

Multiple expansion options

Build yourself a computer that will impress you with its performance and stand up to almost any challenge. The DRX70 chassis is compatible with graphics cards up to 350 mm in length - an additional GPU holder allows you to freely adjust the height. You also have 7 slots for expansion cards and space for CPU cooling up to 180 mm high. It is also possible to mount an SSD and 2 HDDs.

Refined in every detail

The DRX70 case is equipped with a transparent side panel and a front panel with a mesh structure, which gives it a modern industrial character. This makes it perfect for use with RGB components - for example, the included fans. This is a fantastic way to achieve interesting visual effects! What's more, built-in magnets allow you to easily remove the front panel, for example, to replace parts or clean the interior. Also noteworthy are special grommets for proper cable organization and feet with shock-absorbing pads, which

guarantee the necessary stability and ensure that the case will not wobble.

Optimal cooling

Be assured that your computer will not overheat - even when using demanding programs or playing dynamic games. The DRX70 case allows you to install up to 8 120 mm fans or 6 140 mm fans. You can also install water cooling up to 280 mm in it. The possibilities are truly vast!

Useful ports at your fingertips

Do you often transfer files between devices? Or do you plan to charge selected devices with your computer? The Darkflash DRX70 case will allow you to do that too! It is equipped with a USB 2.0 and USB 3.0 port, microphone input, headphone output and a USB-C port. Special plugs are also available to protect all sockets from dust.
