

Lens Sunhood Sunnlylife for DJI Osmo Pocket 3 OP3-ZG765 (plastic)

Ref: 5906168433634

Lens Sunhood Sunnlylife for DJI Osmo Pocket 3 OP3-ZG765 (plastic)

Sunnlylife sunshield for DJI Osmo Pocket 3 lens (OP3-ZG765), plastic.

The Sunnlylife Sunshield model OP3-ZG765 is an essential accessory for DJI Osmo Pocket 3 camera users who want to improve the quality of their recordings while protecting their equipment. Thanks to its features and ease of installation, this sunshield is ideal for those who strive to get the best possible shots, regardless of lighting conditions.

Material and construction

Manufactured from high-quality plastic, the OP3-ZG765 shield weighs only 13 grams, which means that it does not overburden the device. Its dimensions (62 x 60 x 68 mm) have been precisely matched to the shape and size of the DJI Osmo Pocket 3, ensuring a perfect fit.

Compatibility and installation

The cover is specifically designed for the DJI Osmo Pocket 3, ensuring a perfect fit and easy installation in four simple steps. The process is quick and intuitive, allowing you to seamlessly add the shield to your camera without the need for additional tools.

Protection and functionality

In addition to its sun protection function, the cover protects the lens and gimbal from mechanical damage, such as scratches or impacts

that can occur during a fall. Importantly, its presence does not affect the operation of the gimbal or the power on/off process, allowing uninterrupted use of the camera.

Advantages of the sun protection

Integration of the sunshield with the DJI Osmo Pocket 3 camera effectively eliminates the problem of incoming unwanted light, thereby increasing the contrast and color saturation in the recordings. This is crucial for obtaining high-quality footage, especially in difficult lighting conditions.
