QCY T25 open ear wireless headphones (gray-orange)

Equip yourself with headphones that can accompany you during your most intense workouts. The QCY T25 is IPX5 waterproof and features an open-ear design for comfortable music listening. The 16-millimeter driver provides rich sound, further enhanced by acoustic isolation, and DNS technology effectively suppresses noise for unobstructed phone calls. Thanks to Bluetooth 5.3, you'll enjoy a stable connection. The maximum operating time of the equipment on a single charge is 12 hours, and just 10 minutes of power renewal provides an additional 90 minutes with your favorite sounds.

**Exceptional sound**

Get extra motivation to exercise by listening to deep bass and richly detailed rhythms. The QCY T25 headphones are equipped with a 16-millimeter driver that enhances the quality of every song. In addition, you don't have to worry about disturbing those around you - thanks to excellent noise isolation, no one else will hear your playlist. And what if someone disturbs your peace and quiet? No problem - use the included earbuds, which effectively suppress noise.

**Conversations without interference**

Do you happen to receive an incoming call during your workout? You probably know how frustrating the communication problem can be due to the ambient noise that often occurs at the gym. The QCY T25 headphones use DNS technology, which reduces unwanted noise

and sounds for better quality when making phone calls. In addition, it only takes one press of the earpiece to start a conversation. Now you can stay in touch with your loved ones without hindrance.

#### Created with attention to detail

The open-bone design increases the comfort and safety of the headphones, while eliminating the problem of blocking the ear canal. The solution used also allows you to stay in touch with your surroundings - so you can run freely without worrying about not hearing oncoming cars. In addition, the equipment remains stably in your ears even during physical activity and is IPX5 waterproof. The flexible headband is made of soft and skin-friendly material, so it perfectly adapts to any head shape. The use of silica gel helped minimize the risk of allergic reactions.

#### Stable connection thanks to Bluetooth 5.3

The QCY T25 headphones use a Bluetooth 5.3 chip, providing low latency and a reliable connection over a distance of up to 10 meters. You can connect them to several devices at the same time and switch between them conveniently.

#### Workout accompanied by music

Don't worry about your headphones discharging at the wrong time. The T25 can run for up to 12 hours on a single charge, and with just 10 minutes of power renewal, you'll get an extra 90 minutes of gear.

#### More with the app

Download the dedicated QCY APP to adjust Equalizer settings, locate your headphones, enjoy the latest OTA updates and more!
