#### APEXEL APL-HB100MM 100mm Macro Lens (Black)

APEXEL APL-HB100MM is a black, 100mm macro lens, mounted on a convenient clip for your phone, opening up a whole new world of photography for you. With it, you can capture the tiniest details with exceptional precision, all in the highest quality.

#### Exceptional Image Quality

Advanced light-permeable glass at 99% combined with a sturdy aluminum alloy ensures excellent image quality regardless of lighting conditions. Each photo becomes a masterpiece, with details becoming visible in an unprecedented way, thanks to the precise operation of the APL-HB100MM lens.

#### Portability and Ease of Use

With the ability to mount on a phone clip, this lens becomes an incredibly practical tool for photography on the go. It only takes a moment to attach it to your smartphone and enjoy professional photographic capabilities wherever you are. Its ergonomic design makes it intuitive and enjoyable for every user, regardless of experience level.

#### 100mm Focal Length

With the 100mm focal length of this lens, you can achieve incredibly sharp and detailed photos even from distances that a standard

phone lens wouldn't be able to reach. It's perfect for photographing various objects, from nature to everyday items, allowing you to capture their details in an incredibly realistic and impressive way.

#### Durability and Solidity

The Apexel brand product is a guarantee not only of excellent image quality but also of durability and solidity. Made from the highest quality materials, this lens will serve you for many years, without losing any of its exceptional photographic capabilities. It's an investment that will surely pay off, both for amateurs and professionals in the field of mobile photography.
