Ref: 5906168430244

Mobile lens APEXEL APL-HB110W 110 ° Wide Angle Lens

APEXEL APL-HB110W 110° wide angle phone lens

Nowadays, when shooting with a smartphone has become almost a daily occurrence, looking for ways to improve the quality of our photos is natural. This is where the APEXEL APL-HB110W wide-angle lens enters the scene, a device that takes mobile photography to a whole new level. See what it can offer you!

A unique perspective

The APL-HB110W from Apexel was designed with passionate photographers in mind, offering an impressive 110° viewing angle. This means the user is able to capture wide landscapes, cityscapes or group shots without having to move away from the subject. With clear corners and minimized distortion, each photo retains natural proportions and rich detail.

Construction and materials

The APEXEL APL-HB110W combines advanced technology and durability. Its design is based on a high-quality optical coating supported by robust aluminum and ABS components. This combination of materials guarantees not only excellent image quality, but also resistance to daily use.

Ease of installation and compatibility

One of the most important advantages of this lens is its versatility. Thanks to the universal clip with M17 thread, mounting on almost any smartphone is quick and hassle-free. Whether it's an iPhone, Samsung, Xiaomi or any other brand, the APEXEL APL-HB110W is ready to use almost immediately out of the box. Compatibility with 98% of cell phones makes it an ideal choice for anyone looking to improve their mobile photography experience.
