Outdoor Wi-Fi Camera Imou Cell PT 3mp H.265

Ref: 6971927239443

Imou Cell PT 3MP H.265 Wi-Fi outdoor IP camera

Ensure security around your home. The Imou Cell PT outdoor camera captures 2K video and provides clear, high-quality images even at night. It also has a built-in alarm and motion sensor. It boasts a battery life of up to 280 days and is very easy to install. Its additional advantage is IP66 water resistance. Convenient control of the camera is enabled by the dedicated IMOU Life app.

High quality images at any time of day or night

With Imou you won't miss any detail. The Cell PT camera captures images in 2K QHD resolution, so you are sure to notice all the important details. What's more, the device performs well even at night. It offers several night vision modes, including Smart Mode, Full-color Mode, Infrared Mode and Off Mode, so you can customize its performance to suit your needs.

Long operating time, convenient charging

The camera is equipped with a powerful 15,000 mAh battery. Thanks to this, fully charged it can serve you for up to 280 days! Quick and convenient charging of the device is made possible by the built-in USB-C port. It is also possible to connect the camera to a photovoltaic panel (not included) - this way you will ensure almost uninterrupted access to electricity and reliable operation.

Hassle-free installation, robust design

Mounting the Cell PT camera is extremely easy and fast - it will only take you a moment. You also don't need to use any additional cables. Also noteworthy is the device's robust, sealed construction. Thanks to its IP66 waterproof rating, you can mount it outdoors without worry - it won't be intimidated by rain or wind.

Reliable motion sensor

No longer do you have to worry about a stranger being around your home, and you won't know anything about it. The Cell PT camera has a built-in motion sensor, and can also rotate 355° and tilt up to 90°. If a person comes within its range, it will immediately start tracking them, keeping them in the frame at all times. An alarm function is also available - the device is equipped with a 120 dB siren.

Plenty of possibilities with the app

Connect the camera to the IMOU Life app and gain access to a host of useful features. For example, you can choose from 5 operating modes of the device, adjust sensitivity and detection zone, change alarm settings and create operating schedules. However, that's not all! The camera is equipped with a speaker and microphone with echo cancellation, so you can conveniently communicate from the app. Now you can easily greet guests who came to the party, or tell the courier to leave a package at the door - even when you are not at home.
