

Solar panel IMOU FSP12-TypeC for Cell PT 3W

Solar panel IMOU FSP12-TypeC for Cell PT 3W

Ref: 6976391037625

IMOU FSP12-TypeC solar panel for Cell PT 3W cameras.

Provide your Imou Cell PT camera with a reliable power source. The FSP12-TypeC solar panel will allow you to charge your device using green solar energy - it offers a power output of about 3 watts. The product is very durable and resistant to harsh weather conditions, and its seamless connection is made possible by a long 4-meter cable - it gives you more flexibility during installation and allows you to choose a location with optimal sunlight.

Perfect power source

Have confidence that your outdoor camera will not refuse to serve you at the least opportune moment. Imou's solar panel will allow you to charge it with publicly available solar energy! With a power output of up to 3 watts, you only need a few hours in direct sunlight each day to keep your device almost continuously ready for use.

Thoughtful design

Thanks to its robust, well-thought-out design, the panel is extremely durable and resistant to damage - it will perform well even in harsh weather conditions. It is also distinguished by a reinforced USB-C cable with a specially designed connector, which features impressive durability and long life. This is an excellent investment for years to come!

Included

Solar panel Universal connector Round cap nut Locking nut Base Screw x4 Wall anchor x3 Connection cable (4 m)
