360° Indoor Wi-Fi Camera Imou Ranger 2C 3MP H.265

Ref: 6971927237944

Imou Ranger 2C 3MP H.265 Wi-Fi Indoor Rotating Camera

Enhance the security of your home. The Imou Ranger 2C camera provides high-quality 2K images and rotates from 0-355°, so you can keep an eye on every angle in the room of your choice. It also has a built-in motion sensor and alarm siren. There's also a dedicated app that you can use to conveniently change the settings of your choice.

Everything under control

Don't let you miss anything important. The Ranger 2C camera captures 2K video for clear, detail-saturated images. It also supports H.264 and H.265 codecs, plus the device can rotate 355° and tilt from -5° to 80°, guaranteeing full control over every nook and cranny in the room.

Motion sensor

You no longer have to worry about an unwanted person getting into your home and you won't know anything about it. The camera is equipped with a motion sensor - as soon as it detects someone's presence, it will immediately send you a notification to your phone. It can also set off an alarm siren to scare off a potential burglar. What's more, thanks to the Smart Tracking function, the device will automatically focus on the intruder and track him, keeping him in the frame at all times.

Facilitated communication

The camera has a built-in speaker and microphone, so you can use it to communicate with other household members and more. Now you can conveniently relay a message to loved ones, greet unannounced guests or ask the courier to leave a package at the door! But that's not all - the device automatically detects unusual sounds, such as a baby crying. In such a situation, it will immediately send you a notification, and you will have time to react accordingly!

Many possibilities in the application

Download a dedicated Imou Life app and get more possibilities. With its help, for example, you can set schedules for the alarm and designate detection zones. There is also a function for hiding the camera lens - use it when, for example, you are at home and want to protect your privacy.

Various ways to store your files

Enjoy convenient access to your recordings. The Ranger 2C camera allows you to store your files in several ways - including on a microSD card (up to 256 GB) or via NVR. You can also use the cloud - each newly registered device entitles you to 30 days of free access to the Imou service.
