Ref: 6939119034054

Havit SK835BT Bluetooth Wireless Speaker

Get great audio quality wherever you go. The Havit SK835BT wireless speaker is equipped with 2 5W drivers and supports surround sound. The 1200mAh rechargeable battery ensures long battery life, and Bluetooth 5.0 is responsible for reliable signal transmission. The device is also extremely durable and waterproof. It also allows you to comfortably talk on the phone.

New music dimension

This compact speaker will give you an unforgettable musical experience. As many as 2 5W drivers provide crystal clear sound, rich details and enhanced bass. So you can rediscover your favorite songs in a new and better quality. Or pair more speakers together to activate Stereo Party mode and enjoy stunning surround sound.

Multifunctional

The Havit SK835BT speaker will work well in many applications and allows you to enjoy your chosen audio sources in several ways. The device supports TF cards and allows you to connect your devices via AUX or USB port. It is also compatible with Bluetooth and TWS equipment. It also supports FM.

Reliable wireless connection

Goodbye latency and signal issues. Bluetooth 5.0 provides a lightning-fast, stable and interference-resistant wireless connection with a range of up to 10 meters. So you can break free from wires and enjoy the freedom you dream of when listening to your favorite songs.

Reliable in almost all conditions

The SK835BT speaker is not only portable and functional, but also durable. It is made of high-grade materials that provide it with extreme durability. It is also IPX5 waterproof, so it is not afraid of rain drops or accidental splashing! So you can safely use it during a bike trip or at the pool party.
