

Camera Battery Memory Card Case K&F Concept (KF31.079)

Ref: 6942052512350

Camera Battery Memory Card Case K&F Concept (KF31.079)

K&F Concept battery and memory card case (KF31.079)

The K&F Concept case is an indispensable accessory for any photographer, providing safe storage and transportation of your essential accessories. It will easily hold up to 12 different types of memory cards, as well as up to 8 AA/AAA batteries or 2 digital camera batteries. It is extremely resistant to wear and tear, so you can rest assured that your valuable accessories are fully protected while in transit.

All your accessories in one place

You no longer have to worry about lack of storage space for your memory cards and batteries! The case can hold up to 4 SD cards, 2 CF cards or 2 XDQ cards, 6 Micro SD (TF) cards and 8 AA/AAA batteries or 2 digital camera batteries. This ensures that you'll always have enough power and space with you to store your important data during your photographic expeditions.

Safety in all conditions

Made of durable ABS and lined with a thermoplastic rubber material, the case is designed for maximum protection. Sealed and weatherproof, it protects your batteries and memory cards from water, dust and debris for comprehensive protection.

With attention to detail

The slots are perfectly aligned with the memory cards and batteries, preventing them from sliding around inside the case. This ensures

that your accessories are safe and protected from damage. What's more, the ergonomic closure system makes it easy to open and close the case, while guaranteeing complete security for your equipment.
