

Filters K&F Concept ND&PL (8/16/32) Kit for DJI Mini 4 Pro

Ref: 6942052514767

Filters K&F Concept ND&PL (8/16/32) Kit for DJI Mini 4 Pro

K&F Concept ND&PL (8/16/32) filter set for DJI Mini 4 Pro

Create high-quality bird's eye shots regardless of lighting conditions. With the ND/PL filter set, you can easily get the results you want! The accessories guarantee stunning images and are very durable, yet lightweight. They are also distinguished by simple and quick installation - you will be ready to record in no time. The filters are designed for DJI Mini 4 Pro drones.

Image in the highest quality

The filters included in the set were created from AGC optical glass, so they provide excellent image quality. They effectively reduce glare and enhance contrast, making it easier to create breathtaking shots. The ND8/PL filter will work well on partly cloudy days, the ND16/PL filter is perfect for recording in ordinary daylight, and the ND32/PL filter will be the best choice in bright light conditions.

Made for DJI Mini 4 Pro

K&F Concept's filters fit perfectly on the camera of the DJI Mini 4 Pro drone, and thanks to their lightweight design, they do not affect its flight or interfere with the work of the gimbal in any way. At the same time, they are extremely durable. Their surface has been coated with a multi-layer coating that prevents them from scratching and protects them from water, dust or other contaminants. This means that keeping them in perfect condition will not be a problem for you!

Included

ND8/PL filter ND16/PL filter ND32/PL filter Storage box
