

Filters K&F Concept ND (8/16/32/64) Kit for DJI Mini 4 Pro

Ref: 6942052514736

Filters K&F Concept ND (8/16/32/64) Kit for DJI Mini 4 Pro

K&F Concept ND filter set (8/16/32/64) for DJI Mini 4 Pro

Create excellent photos and videos with your DJI Mini 4 Pro drone. You'll be helped by K&F Concept's ND filters, which provide great image quality and are very durable. They are also distinguished by their extremely lightweight design - they will not be an excessive burden. They are also extremely easy to install - it will only take you a moment.

Get fantastic results

With K&F Concept, your photos and videos will look better than ever before. The ND8 filter (3 stops) will allow you to get fantastic results on partly cloudy days, and the ND16 filter (4 stops) will be an excellent choice when recording in ordinary daylight. In bright light conditions, the ND32 (5 degrees) and ND64 (6 degrees) filters will work best.

Refined in every detail

K&F Concept filters were created with high-quality AGC optical glass, so they provide stunning images. They are also very durable and easy to clean - their surface has been coated with a multi-layer coating to protect against scratches, water and dirt. Their additional advantage is the incredibly lightweight design - they will not affect the flight stability of the drone or the operation of its gimbal.
