

Filters K&F Concept ND (4/8/16/32/64/1000) Kit for DJI Mini

Ref: 6942052514682

Filters K&F Concept ND (4/8/16/32/64/1000) Kit for DJI Mini 4 Pro

K&F Concept ND filter set (4/8/16/32/64/1000) for DJI Mini 4 Pro.

The set of 6 ND filters by K&F Concept will allow you to take even better shots with your DJI Mini 4 Pro drone. You will successfully use it in varied conditions - both on cloudy and sunny days. The included filters are distinguished by their durable, lightweight design and are very easy to install. Now you'll be ready to record in no time!

The image you care about

The set includes up to 6 ND filters for the DJI Mini 4 Pro drone. The ND4 (2 stops) and ND8 (3 stops) filters are great for recording on cloudy days, while the ND16 (4 stops) filter will work well in ordinary daylight. If you plan to film in bright light, choose an ND32 (5 stops), ND64 (6 stops) or ND1000 (10 stops) filter. Creating breathtaking shots has never been easier!

Improved design

High-quality AGC optical glass is used to make the filters, so you can enjoy fantastic image quality. At the same time, the accessories are very durable - their surface has been coated with a multi-layer coating that protects them from scratches and dirt. This makes it easy to keep them in excellent condition! At the same time, the filters are extremely lightweight - they will not overburden your drone or affect its flight stability or gimbal operation.
